

Quality survey 2017

Experis has conducted their annual Quality survey which helps get a better understanding of Quality professionals in Ireland. We want to find out what they value when looking for a career move and if their attitudes change year to year. We thought you might be interested in some of the insights we discovered.

POPULAR LOCATIONS

Leinster and Munster were tied as the most popular destinations with 46.1% of the votes each. Connacht came in 3rd with only 7.8% of the votes. Last year Leinster was the most popular destination which shows a shift in location preferences.

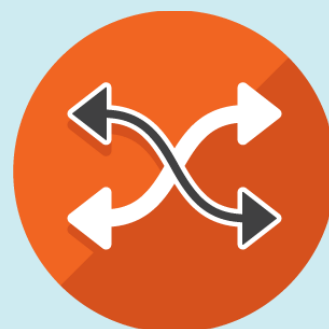

THE INDUSTRIES

The most popular industry for Quality professionals to work in is the Pharmaceutical industry (86%) followed by Bio-technology (60%) then Med Device (46%) and finally Food (16%). This trend was echoed last year with each industry coming in the same place.

JOB SWITCHING DRIVERS

Year on year work life balance remains the most important factor professionals consider when choosing a career move (78%). Salary, bonuses and incentives were very close behind being only 2% less popular. Candidates also stated the importance of location being a key factor when deciding their next move.

CONTRACT OR PERM?

Professionals surveyed showed a large preference for permanent roles (75%) over contract roles (25%). This can vary by industry but most seem attracted to the benefits associated with permanent roles

SALARY EXPECTATIONS

92% of candidates are expecting some sort of salary increase when changing roles. 65% of Candidates are likely to expect a minimum 10% increase in their new role, while only 9% are not expecting any salary increase.
